

### Product Group MFEA

Articulated machine feet made of glass fibre-reinforced polyamide, galvanised steel thread and vibration-damping rubber base

#### Standard Colours

- black

#### Material

- Thread: zinc-plated steel
- Base: glass fibre reinforced polyamide (PA-GF)
- Rubber: NBR 70 Shore

#### Product information

- A thicker rubber plate absorbs oscillations and vibrations.
- The machine foot can compensate for uneven floors up to 30°.
- There are two prepared screw-on holes (closed).
- The load capacity of the screw (buckling length!) may be less than indicated in the table.
- Compressors, feeders, vibrators, cleaning machines
- The foot is used in work areas with low stress.
- The vulcanised polyamide base is used to solve vibration problems.

The base is made of vulcanised polyamide and is used to solve vibration problems.

#### Product options on inquiry

- Delivery with additional steel nut possible.
