

Product Group MFSSB

Machine feet made of stainless steel with fixing system and vulcanised rubber pad

Material

- Base body: AISI 304 (A2)
- Rubber: NBR 80 Shore, vulcanized

Product information

- Depending on the size of the thread or the foot diameter, the machine foot is provided with a chamfer on both sides or with a hexagon as a spanner flat.
- The foot is made of pressed moulded sheet metal. The vulcanized rubber is firmly attached to the sheet. This prevents the penetration of bacteria and ensures a high standard of hygiene.
- Die abgerundete Form und der verdeckte Übergang vom Fuß zum Gewinde erleichtern die Reinigung.
- The machine foot can compensate for uneven floors up to 10°.
- The load capacity of the screw (buckling length!) may be less than indicated in the table.
- Food industry

Product options on inquiry

- Machine foot made of stainless steel AISI 316 (A4)
